UNITED STATES DEPARTMENT OF AGRICULTURE
Extension Service, Division of Extension Information, Motion Pictures
Washington, D. C.

Emotion
A library of educational pictures (16 mm. and 35 mm., sound and silent) on various phases of agriculture, including crops, livestock, poultry, dairy-ing, forestry, rural engineering, home economics, and related subjects is main-tained by the Department. Most of these films are made for specialized use to assist the Department in its extension, regulatory, and administrative work, and available prints have been provided and are lent primarily for this purpose. The supply of prints and facilities for distribution are inadequate to meet de-mands, and thousands of requests for bookings must be denied annually. However, prospective borrowers in the States named below may obtain prints of most De-partment films from the State institutions designated below on payment of a small service charge. Department employees and State extension workers may obtain prints free for use in their work.
